The Palladam Hi-Tech Weaving Park, Tamil Nadu set-up under the SITP Scheme was inaugurated on April 19, 2008. The Park will provide employment to about 5,000 people. The remaining 29 parks will be completed by 2008-09.

Technology Upgradation:

The Government recognised technological obsolescence as the main impediment to the growth of the textiles industry. The Government gave a new impetus to the Technology Upgradation Fund Scheme (TUFS), which ensures the availability of bank finance, at rates comparable to global rates, to modernise the production facilities. All the segments of the textiles industry are getting benefits under the Scheme. The efforts of the Government have brought

results, the Scheme had attracted 11,279 applications till March 31, 2007, involving an investment of Rs 93, 447 crore. The Government have provided Rs.1,140 crore for the Scheme during 2008-09. The Scheme will continue till 2012.

Increased Plan Allocation:

The Government recognises textiles sector as the main engine of growth and provider of employment opportunities. In 2007-08, the Plan allocation textiles was Rs 2,243 crore which was 66.21% higher than that of the previous year – second only to the Department of Secondary Education & Higher Education, Ministry of Human Resource Development. In 2008-09, Plan Allocation has shot up by over 11.46% (Rs 2,500 crore) over a much larger base. This shows the commitment of the Government to develop the sector in a sustainable manner.

Investments:

The policy measures initiated by the Government are showing striking results. Investment has increased significantly in the textiles sector, and is expected to touch Rs. 1,50,600 crore by 2012. This enhanced investment will generate 17.37 million jobs (comprising 12.02 million direct and 5.35 million indirect jobs) by 2012. Investment in the textiles and clothing sector in the past three years increased from Rs. 7,349 crore in 2004-05 to Rs. 15,032 crore in 2006-06, and Rs. 48,146 crore in 2006-07. The total investment between 2004-07 was Rs. 70,526 crore.

COTTON:

Cotton plays an important role in the textiles economy. It provides sustenance to millions and contributes significantly to the country's export earnings. Due to focused support provided by the Government to cotton growers, cotton production has shown a consistent growth and it was 244 lakh bales (170 kg each) in the cotton season (October-September) of 2005-06, 270 lakh bales in the cotton season of 2006-07, and is expected to reach 310 lakh bales in the cotton season of 2007-08, a record.

The productivity jumped from 399 Kg./hectare in the cotton season of 2003-04 to 553 kg./hectare in the cotton season of 2007-08. In 2006-07, 58 lakh bales of cotton were exported against 47 lakh bales in 2005-06, and 0.84 lakh bales in 2002-03. In 2007-08, exports are expected to touch 65 lakh bales. Consequently, cotton imports have declined from around 17 lakh bales in 2002-03 to 5 lakh bales in 2006-07. Imports are expected to be around 6.50 lakh bales in 2007-08. Since 2005-06, the country has become a net exporter of cotton.

The Technology Mission on Cotton (TMC) was launched on February 21, 2000, to improve the quality and productivity of cotton, and reduced post-harvest contamination. TMC comprises four mini-missions of which mini-missions III and IV are being implemented by Ministry of Textiles.

The mini-mission II and IV have been extended to March 31, 2008 from March 31, 2007. Under mini-mission III of the 250 market yard which were to be setup / revived, 127 market yards have been completed at an estimated cost of Rs.255 crore. Under mini-mission IV of the 1000 ginning and pressing factory 679 had been completed.

During the current year, high cotton prices and the inability of mills to procure at current price levels have put the textile players on the backfoot. Following a surge in global prices, there is a cascading effect in the Indian market as well. Domestic prices have soared by 15-20% since last year.

Confederation of Indian Textile Industry (CITI) Chairman, Mr. P.D. Patodia said the domestic prices are ruling higher despite bumper production. Interestingly, there is significant increase in exports of cotton this year. Exports have already clocked a growth of 46%, crossing 85 lakh bales as against 58 lakh bales last year. Textile commissioner JN Singh pointed out that in India, the prices are still low compared to global markets even though they have risen. That is why exports are good he said. Mr. Singh further added that in the next cotton year, starting October 1, 2008 – the production is expected around 325 lakh bales. Despite good domestic production globally, availability is less and local buyers should buy at the right time, he said.

TEXTILES EXPORT:

The sharp appreciation in the value of the rupee vis-à-vis the dollar and the euro has affected garments and home textile exports to the US and EU. In 2007-08, the Textiles exports were US\$ 20.5 billion, against the target of US\$ 25 billion, registering a growth of 9.4% in dollar terms against exports in 2006-07. The exports grew only by 1.49% between April-October 2007, but the situation improved radically in the later half of the fiscal, registering a total growth of 9.4%.

The Government has taken steps in the short, medium, and long terms to provide relief to exporters. As part of a short-term strategy, the Government has enhanced the Duty Exemption Pass Book (DEPB) and Duty Drawback Rates.

exempted Service tax on 12 services, reduced interest rates on pre and post shipment credit, and facilitated faster clearance of arrears of terminal excise duties and Central Sales Tax. As a part of the medium term strategy, the Government has decided to continue with the Technology Upgradation Fund Scheme, Scheme for Integrated Textiles Parks and the Technology Mission on Cotton in the XIth Five Year Plan. In the long run, there is a need for improvement in the infrastructure, labour law reforms, and create a new business orientation by the industry in line with the global trends.

In spite of a difficult global scenario, the Government is confident of achieving the exports targets set out in the National Textiles Policy, 2000, and the Working Group on Textiles and Jute Industry for the XIth Five Year Plan.

OPPORTUNITY AND THREATS

The health of textile units is primarily dependent on adequate availability of quality cottons at competitive prices. With the augmented supply of quality seeds and larger production of hybrids and Bt.cottons, the production and productivity of cotton in India have been increasing. Therefore, the supply of quality cotton is expected to be comfortable. This augurs well for the future growth of the textile industry.

The growth and development of textile industry in the past was stunted because of distorted fiscal structure which favoured fragmentation and tax evasion. This lacuna has been removed and the level playing field has been provided. Government is carrying this policy forward, especially for cotton products. Besides, continuation of Technology Upgradation fund Scheme during the Eleventh Plan announced in this years budget would go a long way in improving competitiveness of textile industry. This will also boost the demand for quality yarns from downstream sectors.

OUTLOOK

Indians have well understood the importance of staying one step ahead of developments in the world economic environment. Industry operators are increasingly moving towards modernization and expansion as encouraged by the so-called Textile Upgradation Fund Scheme implemented by Government.

China's impressive production capacity and its growing strength compelled Europe and USA markets to some serious reflections. With traders realizing the threat of relying on a single manufacturing source such as China, India could do well in proposing a valuable alternative to buyers on the international scene, but this is only possible through an adequate and appropriate development strategy and macro economic policy.

In that view, many manufacturing companies in India are rushing towards expansion and modernization options. Manufacturers are having recourse to fund raising programmes pushing EPS to higher growth, dissolving equity on its way. Business collaborations with foreign players, creation of buying offices and Government's effort to enhance quality production and export are many visible signs of Indians coming into force on the global market.
